

## The USFA Pre-War

★ 100% American Made ★

# Were you born 100 years too late?

*The* US Pre-War™

re-creates guns just as they were built at Colt's Armory between 1873-1941 before the advent of WWII. This was the end of 1st Generation Production.

The last serial number was 357,859. The US Pre-War features an Old Armory Bone Case™ and Armory Blue™ finish, the correct use of assembly number in hidden places and an original 1st Generation serial number. Original Colt SAA caliber offerings and unique polish techniques recreated by USFA to build these fine heirlooms showcase the work of our Armory Workmen.

*U*SFA brings back to life some forgotten knowledge that makes the US Pre-War™ the Best of the Best. With certain options you can re-create an original gun from history or your personal collection - even down to the serial number as many of our customers have done. Retire your old Colt and commission USFA to build a replacement. A Historical Letter is available to document your gun. For more information, see your dealer, call

1-860-296-7441, or visit our website, [www.usfirearms.com](http://www.usfirearms.com)

For historical accuracy, all U. S. Fire Arms revolvers use a solid firing pin. Always keep the hammer down on an empty chamber for safety.

*Model shown with 7 1/2" barrel and Black Powder Frame Option. The selection of this frame style means that a "Bulls Eye" Ejector Rod is historically correct for this model.*
